

Example Script:

Hello, **[representative's name or "honorable county legislative delegation"]**! I'm a constituent from **[city's name]**. I'd like to take two minutes of your time to put forth the concern regarding considering local legislation to help create and fund a zoo for us in North Alabama.

I urge you to use all the authority and means provided you to make this happen as quickly as possible. By doing so, you would be helping to create an institution that will be a benefit to your, mine, and North Alabama's communities for decades to come, even for over 100 years. We all know that zoos are educational and exciting places for people of all ages. They offer an opportunity to get up close and personal with wild animals, while also learning about their habitats and conservation. It will provide a valuable learning resource with educational programs meant to spark curiosity, knowledge, and understanding of the animal kingdom. They will host classes teaching about basic biology, ecology, endangered species awareness, animal habitats, conservation efforts, and more! Plus, there would be interactive exhibits designed to take people up-close with some of the Zoo's inhabitants.

There are other numerous benefits that come from having a zoo in our community – from providing employment opportunities for local residents and boosting tourism revenues, to increasing awareness about animal conservation efforts. Creating a zoo would also give us all the chance to appreciate the beauty of nature, whether we live near or far from other natural habitats. Currently our citizens and schools must travel outside the area to experience these benefits all the while spending money there. Help us to keep our dollars here in our community.

Beyond these tangible advantages, let's not forget how much fun it would be for kids (and adults!) to visit the zoo regularly! Every visit could become an exciting adventure filled with new discoveries and memories. It would even be possible to plan special events like birthday parties at the zoo, creating unique interactive experiences that children and families will never forget. It is most worthy of the term Quality-of-Life Project.

Please support us in giving our community a zoo and aquarium "just down the road". We believe in you, **[representative's name or "honorable county legislative delegation"]**. Thank you for your time.
